

Mt Morris Hills Hiking Trails

Mt. Morris Hills County Park began in the 1970's with a group of local individuals who set out to obtain State Park status for a beautiful undeveloped hill in Waushara County. While the dream of a State Park did not materialize, the result was the beginning of Mt. Morris Hills County Park.

The years have brought a number of changes to the park including the development of the Nordic Mountain Ski Area and the onset of Mountain Biking. Throughout the years people have hiked "the mountain". Rolling hills with some steep slopes create a good physical workout. The oak-aspen timber type provides a great area for nature study.

Storms and Oak Wilt Disease have created a number of openings in the forest canopy. Areas of mature aspen have been harvested to create aspen regeneration. These openings are very beneficial for wildlife, especially white-ailed deer & ruffed grouse.
